

TestPig* - Significantly better Year 2019 has been another excellent year for TestPig.**

Early this year we introduced a new type of test called TestPig Baby. TestPig Baby targets at the smallest of the newly weaned piglets. These small piglets require extra concern in respect of special gentle diets.

The TestPig Baby test has already proven its value. For the time being we are conducting our fourth trial. For documentation we refer you to our list of published results (TestPig Flex and TestPig Baby):

From the Zero Zink Summit this summer we noticed that the pig industry is still searching for the “Philosopher`s stone”.

While searching our services are still needed and demanded. So, if you are considering to order a TestPig test, please contact us as soon as possible to make a reservation.

Although we are rather busy we would be pleased to invite you to see our test facilities.

Due to the Christmas and New Year holidays, the office is closed from December 20 until January 6, 2020.

*We wish you a merry Christmas
and a happy New Year*
